Exterior aftermarket bulbs

	3157 Tail, Brake, Turn Signal & Back-Up bulbs are also available in custom colors and styles. Available colors are red, blue, amber and super white. The LED versions shown sell for \$16.95 each and are available from Superlumination.com
	#921 center stop lamp are also available in custom colors and styles. Available colors are red, blue, green, amber and super white. The LED versions shown sell for \$6.99 each and are available from Superlumination.com

NOTE: Bulb part numbers shown in **Blue** are factory part numbers. Bulb part numbers shown in **RED** text signify the availability of aftermarket replacement bulbs in custom colors. Some

may also be offered in "Long-life" versions, such as Sylvania's 3157NA-LL. Custom and replacement bulbs are available from a variety of different online companies, several of which are listed in the *Links* section below. More information can also be found in the [Upgrading section](#).

Important: Before replacing any automotive bulbs with types or styles other than what the manufacturer has specified or recommended, be sure to check local and Federal laws governing vehicle lighting. An excellent reference web site for this information can be found here: [Motor Vehicle Lighting Standards](#).
